

RENEB - Grant for early career scientists for ERPW 2024

RENEB will financially support early career scientists who present their work at the ERPW 2024 in Rome. The grant consists of an amount of up to 500 €, which covers either the conference fee and/or travel and/or accommodation expenses.

Application rules :

- PhD student or PostDoc. The PhD degree should not have been completed more than 8 years ago (Copy of the PhD certificate).
- The research work presented by the candidate should fall within the scope of RENEB, the European Network of Biological Dosimetry and Physical Retrospective Dosimetry (Abstract of the work submitted to the conference).
- The candidate is expected to work in an organization with a RENEB membership (voting or associate member).
- Short curriculum vitae and letter of motivation.

Submission:

Please send a letter of application before 30 June 2024 with the relevant documents (in one single PDF document, file less than 5 MB in size) to reneb@bfs.de under subject: "Young Scientist support"

Decision:

A decision will be made by the RENEB Council and announced until 15 September 2024 by mail. Those selected should mention RENEB support at the conference either during the oral presentation or reporting it on the posters
